ABOUT ME

Computer Science student and Full-Stack Developer dedicated to building secure and responsive web applications. Proficient in JavaScript, React, and Node.js, with a strong foundation in Cyber Security principles. Eager to contribute technical skills and a growth mindset to a forward-thinking development team.

EDUCATION

Computer Science

Chiang Mai Rajabhat University
2021 - 2025

As a student in the Computer Science Department, I developed the "Center Food" web-based food ordering system by applying core concepts such as front-end development, database management, and system design that I have learned throughout my studies.

Science and Mathematics

Dara Academy
2018 - 2021

The Science and Mathematics Department also plays a crucial role in developing students' logical thinking and technical skills, which are essential in fields like programming, system development, and data analysis.

EXPERIENCE

Full-stack Developer

Wisesoft Co., Ltd. | Full-Stack
Developer Intern
27 Oct 2025 - 6 Feb 2026

- Collaborated with the development team to build and maintain web applications using React and Node.js.
- Assisted in designing and implementing RESTful APIs and database structures to support new system features.
- Participated in the software development life cycle (SDLC) and gained experience with Agile/Scrum methodologies
- Debugged and optimized existing code to improve system performance and user experience.

Web Developer

Personal Projects / Self-Learning
2024 - 2025

- Architected and deployed a full-stack food ordering platform 'Center Food' using React and Node.js, integrating RESTful APIs for seamless data flow
- Designed responsive user interfaces and managed database connections
- Practiced Git version control and UI/UX principles in real-world scenarios

CERTIFICATIONS / TRAINING

Cyber Security Training Program

Security Engineering Certification Program

Key Training Modules

Network Security, Core Security Principles, Security Tool, Programming/Coding, Security Frameworks, Linux Administration, Threat Hunting, Cloud Security, Security Information and Event Management (SIEM), Incident Response

https://arit.co.th/secareer/cert/247_cert.pdf?v=69ce16cbe2f53

SKILLS

Front-End: HTML, CSS, JavaScript, React, TypeScript, Java, SCSS, python
Back-End: Node.js, Express
CyberSecurity: FreeBSD, Wireshark, NMAP, Nessus ZAP (Zed Attack Proxy), Burp Suite, SQLMap ubuntu 20.04, Nikto Hydra
DevOps: GitHub Workflow
Tools/Other: Vite

Adaptability
Collaboration
Critical Thinking
Continuous Learning
Analytical Thinking
Time Management

HOBBY

Music Performance: Proficient in playing multiple instruments, including Bass, Drums, Keyboard, and Guitar.
Linguistic Development: Actively learning and practicing English, Japanese, and Chinese to enhance global communication skills.
Culinary Arts: Passionate about Italian cuisine, focusing on precision and technique in cooking.
